Average Age for Different Types of Chest Pain in Existing Heart disease

The screenshot shows a data visualization tool interface. On the left, there is a sidebar with a search bar and a list of fields under 'Navigation paths'. The main area displays a pivot table titled 'Average Age for Different Types of Chest Pain in Existing Heart disease'. The table has columns for 'Heart Disease', '1', '2', '3', '4', and 'Summary'. The rows are labeled '0', '1', and 'Summary'. The right sidebar shows configuration options for columns, rows, values, and local filters.

Heart Disease	1	2	3	4	Summary
0	4	16	32	35	87
1	16	26	47	94	183
Summary	20	42	79	129	270
